# Process

## Summary

### Process

Within six months three online trainings with focus on infrastructure & IoT, employees & change management as well as potentials & effort will take place. These will be supplemented by three networking and conference events and a company specific value workshop.

### Covid-19

No one knows, what the year will bring. That's why we will make adjustments to meeting formats (on- vs offline) as the situation evolves, ensuring your safety. At the same time we are well aware, that personal exchanges are very important factor, which we will try to accommodate.

### Participation

Participation costs 9,500 euros for each company, which includes all events for three employees. The Value Workshop can be supplemented with additional employees from the company.
